#bio #fruit

A cooperative platform for local and organic products (Saint-Étienne, Loire).

Structure : From the Farm to the Neighborhood

Auvergne-Rhône-Alpes

From the Farm to the Neighborhood is a Saint-Étienne-based cooperative offering local, organic farm products through short supply chains.

We offer high-quality, locally sourced products from small-scale farms that are certified organic.

For individual customers, we offer monthly group buying events, giving you access to products at attractive, wholesale-style prices that you can pick up at our location in Terrenoire, Saint-Étienne.

There, you'll find our full range of seasonal products:

- organic fruits and vegetables,
- organic beef,
- farm-raised pork,
- organic dairy products,
- as well as a wide selection of sweet and savory grocery items.

Orders are placed online.

For students, eating local and locally sourced products can seem complicated: it takes time and requires traveling...

To make things easier for you and allow everyone to enjoy high-quality products from artisans and farmers within 80 km of Saint-Étienne, De la Ferme au Quartier delivers your baskets (minimum order of 10) directly to your campus—with no commitment!
