#collection

Recycling center: collection, recycling, and resale of secondhand items

Structure : ECO-Triouzoune

Difficulté : facile

Neuvic | New Aquitaine

Our association was founded in 2013 and stems from a shared goal:

- to implement initiatives that contribute to improving the environment and social bonds
- give objects a second life to reduce the amount of waste sent to landfills
- promote job creation

The money raised from in-store sales is used to fund the association's operations (salaries, vehicle and facility maintenance, etc.)

Our initiatives:

Collection: We have established various methods for collecting items, ensuring they remain in good condition for reuse. Individuals can drop off their reusable items during store hours. Pickups can be arranged at your home upon request

Clearance: Based on a quote, we handle the entire clearance service (removal and cleaning), whether it's for a few items or an entire house, garage, barn, etc.

Reuse: Reuse is an essential step in giving objects a new lease on life. Various processes are required: sorting, inspection, cleaning, and minor repairs if needed.

Items that cannot be reused are sent to the recycling stream and recycled for their materials.

Resale: The ECO-TRIouzoune resource center welcomes you to its two stores:

The proceeds help cover the facility's operating costs and create jobs
