#anti-waste #detail #fall #wood

Bois Grocery is a local retail store offering discounted prices.

Structure : At the corner of the sawmills

Tursac New Aquitaine

Bois Grocery Store

The Wood Store is a **local wood service offering retail sales at reduced prices**.

As an anti-waste alternative, the wood sold at the store consists of scraps and non-conforming pieces generated by sawmills, which are then repurposed and sorted by the store staff for local customers.

Part of the store operates on **a pay-what-you-can basis**, while another section is priced according to:

- Wood Type
- The section
- Length
