LE LOWCAL, A THIRD PLACE THAT COMBINES ECOLOGY, HOSPITALITY, AND LOW-TECH

Structure : La Manufacturette

Villeurbanne

Auvergne-Rhône-Alpes

At the third place **LE LOWCAL**, our collective brings together **ecology, hospitality, and low-tech solutions.** We run a **solidarity-based co-living** initiative, **a community café**, **a shared garden**, and **a coworking space**. Our goal is to promote the social and professional integration of refugees, while revitalizing the urban fabric. Five collectives are involved on a daily basis: La MYNE, Méandre, On The Green Road, and ours.

The **Tremplin program** shapes the venue's calendar of events throughout the year: development projects, permaculture gardening workshops, and participatory cooking sessions. Some initiatives are specifically tailored for exiles: public writing services, mental health counseling, and sociolinguistic workshops for professional integration.
