**A COALITION OF PRODUCERS, PROCESSORS, DISTRIBUTORS, ENVIRONMENTAL ORGANIZATIONS, AND CONSUMERS WORKING TO PROMOTE THE SUSTAINABLE DEVELOPMENT OF ORGANIC FARMING IN CHARENTE.**

Structure : MAB16

Puy-moyen

New Aquitaine

## The Charente Organic Farming Association

Founded in 1992, MAB 16 brings together producers, processors, distributors, environmental organizations, and consumers with the goal of sustainably developing organic farming in Charente.

It unites the department's organic farmers, who all share the same objective: to develop and promote organic farming in our region.

## Our missions

### **Representing and defending the interests of organic**

**farmers:** regulations, CAP applications, tax credits, support for conversions and new operations...

### **Promote and support the development of organic farming**

Support organic conversions and new operations in Charente (conversion assessments)

Facilitate exchanges among farmers on organic practices (individual technical support for organic producers or those in conversion + facilitation of discussion groups)

Train producers in organic farming techniques (100% organic advisors)

Obtain certifications (trials, assessments)

### **Structuring local**

**supply chains** Supporting producers in marketing their products

Supporting the emergence of collective projects to promote local

organic production **Supporting the agricultural and food transition in local areas**

Raising awareness among elected officials, citizens, and local stakeholders about the benefits of organic

agriculture Facilitating the supply of local organic products to institutional

food services Providing information on what organic

farming is Supporting local governments
