#garage

Garage Solidaire offers assistance with vehicle maintenance and repairs from a team of mechanics

Structure : GS15 Community Garage

Aurillac

Auvergne-Rhône-Alpes

The GS15 Community Garage is an innovative initiative aimed at improving mobility for people with low incomes. It is located in Aurillac and the Cantal department. Opened in July 2021, this workshop allows you to have your personal vehicle serviced or repaired at a reduced price. It also offers car rental and sales services.

This initiative is the result of a collaboration between the Aurore association, Secours Catholique, and AFAPCA. It is also carried out in partnership with local government and socio-professional stakeholders in Cantal. This synergy effectively addresses the mobility needs of people in precarious situations by offering them tailored and accessible solutions.
