#forest #garden

Promotion, experimentation, and development of "Forest Gardens"

Structure : ASSOMIRABLE

Carpiquet Normandy

The general purpose of the "MIRABELLE" association is to promote, experiment with, and develop "Forest Gardens," permaculture, and other edible ecosystems, as well as to protect the environment and biodiversity.

MIRABELLE is a non-profit organization established under the French Law of 1901, founded in June 2023 (published in the JOAFE on June 13, 2023 - Registration No.: W142017576).

Its first project aims to create an edible forest on a 1-hectare plot located in Villy-Bocage (14310).

The fall and winter of 2023 will be devoted to preparing and then planting the first trees (canopy and the lower strata beneath it).
