Community-based housing renovation to assist people facing energy poverty

Structure : ENERTERRE

Normandy

The Enerterre association runs several projects focused on community-based home renovations for people facing energy poverty, bringing beneficiaries together through a local exchange system.

Enerterre works:
to promote eco-friendly renovations,
using local bio-based and geosourced materials,
to improve the energy efficiency of homes,
through mutual aid among residents supported by professionals.

Our association's initiatives
