Promote eco-friendly consumption and waste prevention

Structure : CREPAN

Normandy

For years, CREPAN has carried out initiatives aimed at promoting eco-friendly consumption and waste prevention; these initiatives have been continued under the leadership of **FNE Normandie** since January 2022.

Reducing food waste

- Coordination of RÉGAL Normandie (Network to Prevent Food Waste)
- Reducing **food waste** in production, institutional food service, commercial food service, and consumer settings.
- Raising awareness among the general public and in schools

Promoting sustainable food systems

- Participation in the **Territorial Food Projects** (PAT) network
- Promoting **sustainable food** in community food pantries

- Promoting the consumption of **legumes** from Normandy

Development of the circular economy

- Coordination of the MIEUH network
- Raising awareness about eco-friendly consumption
- Adapting Normandy’s tourism sector to climate change
- Training on “incentive pricing” for Normandy-based organizations
- Support for E3D institutions
