Launch an initiative to reduce waste by raising awareness about the use of cloth diapers

Structure : Lilly's alternatives

Morizès New Aquitaine

At the nonprofit organization “Les alternatives de Lilly,” we are working in the Gironde and Nouvelle-Aquitaine regions to promote the ecological transition.

Since 2013, our association has been dedicated to promoting awareness, advocacy, and the development of eco-responsible practices and consumption:

- by focusing on waste prevention and reduction,
- by offering consumption alternatives in line with the principles of sustainable development,
- by prioritizing respect, well-being, and health safety for young children

Our association’s initiatives

Zero Waste Awareness Workshops

These workshops aim to raise awareness and inform people who want to commit to reducing waste, as well as those who already practice it, in order to share as many alternatives as possible and, above all, to exchange ideas about everyone's practices.

Cloth
Diaper Awareness Workshops An awareness workshop on using cloth diapers—so cloth diapers will hold no secrets for you! Detailed presentation of several cloth diaper models

Cloth
Diaper Trial Kit Rental To make the transition to cloth diapers easier, we offer a rental option so you can try them out. Different packages are available depending on the child's age and intended use (24/7 or evenings & weekends)

Support and training for early childhood professionals transitioning to cloth diapers. To make the switch to cloth diapers easier, we offer support and training, whether you want to try them out for a short time or switch to cloth diapers permanently.

Disposables: a polluting industry from manufacturing to disposal

Cloth diapers: a reduced ecological footprint
