Environmental and Biodiversity Awareness

Structure : Cozanne Nature

Nolay

Burgundy-Franche-Comté

As a nonprofit organization under the French Law of 1901, Cozanne Nature aims to:

- raise awareness about the environment and biodiversity,

- promote knowledge of flora and fauna,

- inspire people to take action to preserve nature,

- encourage behavioral changes to better protect the environment.

We are nature enthusiasts—professionals and amateurs, specialists and generalists—who wish to volunteer our knowledge to as many people as possible.
