Promote a comprehensive approach to the ecological transition

Structure : LET'S GET TO IT

St. Cyr-sur-Mer

Provence-Alpes-Côte d'Azur

We are a collective dedicated to promoting a holistic approach to the ecological transition to foster individual well-being and respect for all living things.

To this end, we organize a variety of workshops focused on permaculture, sustainable and mindful eating, physical, emotional, and mental well-being, and reconnecting with oneself and others to foster compassionate communication.

The ON S'ÈME association offers support workshops open to everyone.
