Community-based recycling center and educational workshops to raise awareness of sustainable practices

Structure : 3 MIL PA

Cogolin | Provence-Alpes-Côte d'Azur

3 Mil-Pa Association

The 3 Mil-Pa Association invites you to become active participants in a sustainable world.

Initiatives already in place:

The 3 Mil-Pa Association's RESSOURCERIE, which, together with volunteers, works every day to promote the reuse, repurposing, and donation of consumer goods as an alternative to traditional waste disposal channels

Open Tuesday, Wednesday, Friday, and Saturday from 3:30 PM to 6:30 PM

- THE SOLIDARITY THIRST SHOP, which offers high-quality clothing and textiles at affordable prices and accepts donations for those in need.

- THE PERMACULTURE GARDEN, a place for sharing and exchange centered on nature and a

haven of biodiversity

- EDUCATIONAL WORKSHOPS, a breeding ground for knowledge sharing and opportunities to learn about and embrace sustainable practices; the Association's workshops and activities, led by volunteers (and often in partnership with other organizations), form the foundation of participatory community education.

- UPCOMING PROJECTS are numerous and provide space for artistic expression: photo novels, upcycled fashion shows, creative workshops open to the public...

We are an agricultural association dedicated to popular education, working to defend, protect, experiment with, and promote social connections, the circular economy, the social and solidarity economy (SSE), biodiversity, sustainable development, waste reduction and reuse, and solidarity.
