## COMMUNICATE ABOUT CLIMATE ISSUES, SOLUTIONS, AND POSITIVE, SUSTAINABLE LIFESTYLES.

Structure : THE ECOLOCOS

Seyssel

Auvergne-Rhône-  
Alpes

- 1 Raise awareness and communicate about climate issues, solutions, and positive, sustainable lifestyles.
- 2 Encourage residents to create projects with positive impacts.
- 3 Collaborate with municipalities by proposing and organizing projects related to the ecological and energy transition.
- 4 Support, monitor, and mentor residents' positive projects.

## The Projects:

**The Supermarket:** Local, welcoming, and zero-waste, the supermarket is a place where you can enjoy an aperitif with friends or family while taking in the activities and products—together and by adopting responsible practices.

**Community Gardens:** We garden together, learn different environmentally friendly methods, and share the harvest!

**Light Pollution:** Street lighting has a significant impact on biodiversity and energy consumption.

**Incredible Edibles:** Fruits and vegetables for everyone, free and freely available throughout the city.
