#addiction #handmade

A shelter for vulnerable individuals, a farm, and artisanal production

Structure : Berdine's Sheepfold

Bergerie de Berdine

SAINT MARTIN DE CASTILLON

Provence-Alpes-Côte d'Azur

Founded in 1973, La Bergerie de Berdine is a nonprofit organization under the French Law of 1901 and a multifaceted community.

Perched on a Provençal hill, it is first and foremost a **welcoming community** for people who have been vulnerable due to their life experiences and/or addiction, who can stay there for as long as they need.

It is also a **farm** spanning several hectares, offering a variety of artisanal products for sale, either on-site or through local distribution channels.

Finally, Berdine is a **unique destination in the heart of the Luberon Regional Nature Park**, perfect for a meal, a visit, a seminar, or one of our cultural events.
