#fruits #garden #support #sustainable

A welcoming place where people come together to discuss food and ways to live better together in Haute-Savoie

Structure : SPROUTS AND YOU

Pers-Jussy | Auvergne-Rhône-Alpes

A welcoming place offering activities and gatherings centered on food and community life in Haute-Savoie

Founded in August 2022, the non-profit organization “Pousses et Vous” aims to promote sustainable food systems and social connections in Haute-Savoie and the Greater Geneva area. Pousses organizes gatherings and events focused on sustainable development, food-related topics, and fostering a better sense of community—all from an ecofeminist perspective.

Visit us at the Jardin des Pousses, in the ZAC de la Châtelaine in Gaillard.

Activity Areas

The Market Gardening Hub

From seed propagation to market gardening and the final processing of fruits and vegetables

At two production sites (Gaillard and Reignier), we grow local, fresh, and seasonal fruits and vegetables using agroecological practices that respect the soil, biodiversity, and people. Without chemical inputs, we work with compost, cover crops, and crops designed to regenerate ecosystems.

Our “from seed to plate” approach aims for healthy, accessible food rooted in the local community

The Resource Center

Awareness-raising, training, and support for residents, professionals, and elected officials. Our initiatives include workshops for the general public (young and old), workshops for businesses and local governments, and educational programs delivered in schools

The Events Hub

Friendly events designed to create opportunities for connection and exchange

Our welcoming spaces and events are designed to foster connection, diversity, exchange, and the joy of being together.
