## TO PROMOTE THE DISCOVERY AND UNDERSTANDING OF FRENCH AND EUROPEAN FLORA

Structure : Friends of Flora

Chazelles-sur-Lyon

Auvergne-Rhône-  
Alpes

Friends of Flora Join us to discover the rich diversity of the flora around us and learn how to protect it!

Our association aims to promote the discovery and understanding of French and European flora among a wide audience.

We offer educational programs and nature walks to raise awareness about the importance of the environment, flora, fauna, and the ecosystem.

**Our activities:**

**Training sessions and nature walks:** We organize outings and training sessions to explore local flora and learn about it.

**Environmental Awareness:** We raise awareness among our members and the public about respecting the environment and preserving flora and fauna.

**Uses of plants:** We explore traditional and folk medicine, and we offer beauty, wellness, and health products made from wild or organic plants.

**Experimental garden:** We have created an experimental garden of aromatic plants to study and promote these plants.
