Offering eco-friendly and fast deliveries by bicycle and cargo bike

Structure : THE COURIERS OF SAINT-ÉTIENNE

Saint-Étienne | Auvergne-Rhône-Alpes

We offer eco-friendly and fast deliveries by bike and cargo bike!

Who are we?

As a Saint-Étienne-based association affiliated with Coopcycle, our mission is to provide a home delivery service to businesses and individuals in Saint-Étienne.

We advocate for more eco-friendly and quiet modes of transportation, socially and economically fair working conditions for bike couriers, and the development of the local economy!

A bicycle and cargo bike delivery association in Saint-Étienne. We handle deliveries, organize routes, provide shuttle services between agencies, and offer advertising branding services. All our efforts are dedicated to providing a fast, eco-friendly, economical, and local logistics solution to businesses and government agencies in Saint-Étienne, as well as to individuals. Our mission is to create and develop a structure that ensures socially and ethically acceptable contracts and working conditions for gig economy couriers in Saint-Étienne."

We currently have four employees, all on permanent contracts, and each of us travels up to 100 km a day by bike through the city streets.

After winning the call for projects launched by Saint-Étienne Métropole on mobility, the association works with about twenty local companies to encourage staff to commute by bike. This could involve, for example, the company providing a fleet of bicycles.

Testimonial

“I highly recommend them! A quality service for delivering meal trays during our business lunch with our partners. We’ll definitely use Les Coursiers Stéphanois again!”
