Professional urban agriculture and social engagement

Structure : THE FARM UNDER CONSTRUCTION

Saint-Étienne | Auvergne-Rhône-Alpes

We have been working in the fields of professional urban agriculture and social engagement since 2016, with the goal of greening neglected (and other) spaces to co-create edible, welcoming, and functional landscapes with local residents.

We'll help you build connections and grow vegetables in your spaces!

Who are we?

Founded in 2016, La Ferme en Chantier is a recognized and recommended leader in professional urban agriculture in Saint-Étienne. We are a nonprofit based in Saint-Étienne. La Ferme en Chantier aims to create shared, welcoming, and productive gardens and orchards on neglected or underutilized spaces. Our goals include strengthening social ties, promoting food self-sufficiency, and advancing sustainable development through community education initiatives.

Let's create together:

educational gardens

A real garden inside or near a school to learn how to grow different types of vegetables and fruits, understand seasonality, soil, proper techniques, tools, and much more!!!

urban food-producing spaces

As part of a community-focused approach within a space—vegetable gardens, social gathering areas, local composting—for a social housing provider

neighborhood gardens

Right in the heart of the community, where residents can meet, share, learn, and enjoy food together!!!

Winner of the 2023 “Booster de l’innovation sociale” program by Ronalpia

With 10 years of experience, we’re scaling up our efforts, using our full range of tools and expertise to expand and replicate social impact projects—and more…

Come meet us during our office hours

- – Every Tuesday from 5:00 PM to 8:00 PM at Jardin Denfert (St-Etienne)
- – Every Wednesday from 2:30 PM to 4:30 PM at Jardin Waldek Rousseau (Rive de Gier)
- – Every Thursday from 5:00 PM to 8:00 PM at La Forêt Nourricière (St-Etienne)
