#water

Preservation of the Sorgue River's Aquatic Heritage

Structure : The Knights of the Wave

VELLERON

Provence-Alpes-Côte d'Azur

For the preservation of the aquatic heritage of the Sorgue region

Preserving the Sorgue, an exceptional river

Organization of community cleanup days

Environmental education

What do the Knights do?

1 - Supervising children at the ATELIER PECHE NATURE at the Fishing and Environment Introduction Center in Velleron. Together with local AAPPMA groups, they introduce budding young anglers to fishing techniques while raising their awareness of the fragility of the aquatic environment

2 - Participation in the JARDIN D'AUTOMNE organized by Les Pimprenelles on October 5 in Châteauneuf-de-Gadagne. An entertaining and educational program covering various themes: Gardens for All, The Vaucluse, Land of Water, Following the Spider's Thread…

3 - Preparation of several SPAWNING GROUND RESTORATION projects in certain sections of the Sorgue River branches in Velleron and Le Thor. They will be assisted by classes from the "LA RICARDE" AGRICULTURAL HIGH SCHOOL in L'Isle-sur-la-Sorgue as part of an educational partnership.
