SUPPORT FOR THE ESTABLISHMENT AND DEVELOPMENT OF RESOURCE CENTERS AND RECYCLING CENTERS AT THE REGIONAL LEVEL

Structure : Renaître Network

New Aquitaine

SOCIAL REUSE IN NOUVELLE-AQUITAINE

Reuse extends the useful life of objects, thereby reducing waste production and conserving resources.

Reuse organizations collect all kinds of items to sort, repair, or even improve them, or repurpose them for a new use, and then resell these revitalized items. Reuse is considered solidarity-based when it is carried out by nonprofit organizations, run by volunteers, and focused on employment and social integration.

FIGURES

- 430 member organizations
- 72,000 total members
- Over 1,339 employees
- Over 4 million visitors
- 2,919 awareness-raising initiatives
- Over 15,000 tons of items recycled

OUR INITIATIVES

Support for project leaders: ReNAITRe supports project leaders from concept to implementation

The Network's mission is to support the creation and development of resource centers and recycling centers at the regional level. The network assists project leaders in formulating their projects by sharing information on how a resource center or recycling center operates, providing knowledge of funding mechanisms, and connecting them with relevant partners.

On the agenda:

- Discover the role of the national network and regional networks
- Understand how a resource center/recycling center operates
- Identify the key steps for structuring your project
- Finding the right contacts and partners
- Explore available support options

Are you leading a project focused on reuse and the circular economy? Join this event and bring your initiative to life!
