A PARTICIPATORY THIRD PLACE FOR MEETING, SKILL-SHARING, AND COWORKING

Structure : The Clarensac Hangar

Clarensac

Le Hangar de Clarensac is a participatory third place dedicated to creating a space for meeting, sharing, and building connections in the heart of the village of Clarensac and the Vaunage region.

To manage the Hangar third place, rent out spaces—including offices, coworking spaces, and shared garden areas—and help foster social, professional, and cultural connections, as well as the transfer of knowledge and skills among the residents of Clarensac and its surrounding areas, by supporting and promoting local economic, cultural, health, and social initiatives
