The Terre Ferme Association is a member of the Fédération romande de l'agriculture contractuelle de proximité (FRACP), which brings together more than twenty associations, cooperatives, and other organizations, all of which share the same goal:

- to guarantee producers fair prices for their produce
- maintaining small-scale, diversified farms
- raising consumer awareness of agricultural and food issues
- sharing—between consumers and farmers—the risks inherent in growing crops
- establishing an urban-rural partnership in the form of a mutual commitment to produce and consume in harmony with the seasons and with respect for the natural foundations of soil, water, and air.
