A place for collaboration, connection, sharing, and mutual support

Structure : The Foussa

Rognes | Provence-Alpes-Côte d'Azur

What is Le Foussa Third Place?

1- **A place for collaboration, connection, sharing, and mutual support**. For example, sharing a coworking space, pooling resources for local organizations and businesses, and welcoming everyone for a moment of connection (feel free to enjoy our terrace however you like).

2- **A collective approach for the common good.** With a space and a community brought to life for and by the members. We co-create the future together, and members of the third place facilitate connections, coordinate projects, and staff reception hours.

3- **A variety of activities accessible to everyone, offered by our members**: *Digital Hub, Project Support, Sustainability Awareness*, Co-creation of interior design, Computer classes, Gentle Steam Cooking Workshop, Face Yoga, Chair Yoga, “Reinventing Your Career” Workshop,

numerous exhibitions and cultural activities, Intergenerational Workshops, etc.

By building connections, we meet everyone's needs and desires to live better together.

Le Foussa offers

- **A shared workspace:** Sharing space is one of our key activities. Whether for associations, businesses, remote workers, freelancers, students, or even residents looking to get work done with an internet connection, a printer, or the option to eat and drink on-site, this welcoming space is ideal.

- **Digital & Technology Hub:** Supporting everyone in the appropriate and responsible use of digital tools and technologies is one of our core missions. Whether it's helping a senior learn the basics, introducing a teenager to artificial intelligence or teaching them programming, exploring low-tech solutions, or even creating websites for organizations and businesses, managing social media, and more—we offer workshops, training sessions, and tailored solutions.

- We regularly organize activities related to sustainable development (bike repair workshops, raising awareness about squirrel conservation, sustainable interior design, etc.)

- Recreational activities

- Support for your projects

- Solidarity initiatives
