A COMMUNITY-DRIVEN SOLUTION TO FOOD WASTE: FOR STUDENTS IN NEED

Structure : LINKED

Montpellier

Occitanie

Our organization, with locations in Bordeaux, Lille, Lyon, Montpellier, Nantes, Toulouse, the Île-de-France region, and Marseille, collects unsold food from retailers, supermarkets, caterers, and other event professionals to distribute it to students in need.

The contrast is striking: In France, every year, 10 million people live in precarious circumstances while 10 million tons of food are wasted... Since 2016, Linkee has been implementing a field-based logistics solution to recover this surplus and turn it into food aid.
