## **INVENT'TERRE: MAKING MIDDLE SCHOOLS GREENER**

Structure : Invent'Terre

### L'invent'Terre

Occitanie

**Invent'Terre for greener middle schools,**

**A list of small and big challenges for the green transition**

A suggestion box, a resource center... in short, a list of eco-friendly initiatives that can be implemented in middle schools

**Highlighting middle schools' commitment**

They will be able to showcase on this platform everything they have already implemented in support of sustainable development and, in doing so, spread best practices!

### **A collaborative challenge, a shared goal**

Each initiative launched will earn the school a certain number of points, with the goal of achieving, together, the highest possible score for the Gard region and the planet.

All these actions are classified into 7 categories that align with the UN's Sustainable Development Goals. Discover these categories here:

- [Consume responsibly](#)
- [Reduce, reuse, recycle](#)
- [Preserving natural resources](#)
- [Respecting biodiversity](#)
- [Traveling without polluting](#)
- [Adapting to climate change](#)
