#grocery store #isolation

Home grocery delivery in the heart of Brittany

Structure : Marinette's van

King Morvan Brittany

A project rooted in humanity and solidarity

Marinette's Van is much more than just a grocery store: Marina crisscrosses the roads of the Roi Morvan region in her little white van. Inside, you'll find everything you need for daily life—a true traveling grocery store, just like in the old days.

It's a community service that fosters social connections and promotes independence in rural areas.

- **His main tasks:**

- delivering local and essential goods to homes or on a route,
- supporting the ability of seniors to remain in their homes,

- - building connections in areas with limited transportation options,
- promoting local producers and artisans (market gardeners, caterers, livestock farmers, etc.).

- Every week, from Monday to Friday, the van serves the towns and makes door-to-door stops, while also taking remote orders.

A project rooted in the local community

Supported by the Communauté de Communes du Pays du Roi Morvan, the CCI Bretagne, Bretagne Active, Initiative Ouest Bretagne, and several partner town halls
