#gardening #organic

An organization that promotes mutual aid, solidarity, and social cohesion by offering services to businesses and residents

Structure : Resurgence

Figeac (Lot) Occitanie

REGAIN is an organization that promotes mutual aid, solidarity, and social cohesion in the Greater Figeac area by providing jobs to people who are far from the job market, as well as services to local businesses and residents.

Regain's offerings are part of a circular economy approach, promoting employment, re-employment, and sustainable development.

The REGAIN association, through its dual mission:

- to create jobs for people facing particular difficulties

- to carry out projects aimed at improving environmental quality

contributes to the local development of its region by addressing its concerns:

- employment,
- economic vitality,
- the maintenance of local services…

Regain thus fosters economic activity that benefits everyone. It manages:

- a staff placement service (MAD) for individuals and professionals
- an environmental project
- a vegetable-growing project
- a recycling center with an online store
- digital consulting

Our areas of focus:

- the recycling center

- green spaces

- organic vegetable farming

- dry stone walls
