Promote eco-friendly urban agriculture and take action to encourage environmentally friendly eating habits

Structure : The World of Possibilities: Rouen

Rouen Normandy

Are you interested in urban gardens and city vegetable patches? Do you want to get your hands dirty? Do you want to be part of a community-based and eco-friendly initiative right in your neighborhood?

Let's take action to promote environmentally friendly eating habits!

The association Le champ des possibles has been promoting ecological agriculture in the city since 2013 and supports an ethical and organic transition in the way we eat.

Its goal is to raise awareness about agro-ecological issues and "eating well" through educational workshops, activities, and training sessions.

Our workshops for the general public

"Thursday Helping Hands"

Every Thursday from 9 a.m. to 12 p.m. at the Repainville Urban Nature Park, 76000 Rouen

“Tuesday Helping Hands”

Every Tuesday from 9 a.m. to 12 p.m. at the Educational Farm in Parc des Bruyères, 76800 Saint-Etienne-du-Rouvray
