Carpooling to facilitate access to employment and training in Brittany

Structure : hey

Rennes Brittany

The carpooling service for access to employment and training

Transportation issues are no longer a barrier to accepting a job or training opportunity! Since 2017, the éhop solidaires service has been proving its worth in Brittany.

The éhop solidaires carpooling service: simple and effective—a success story!

Some people are at a loss for a transportation solution to accept an assignment, training, or a job interview. Others make their daily commute alone behind the wheel and are willing to offer a seat in their car when the opportunity arises. éhop solidaires brings them together!

The concept

éhop solidaires matches the needs of people without a way to get to work or training with the legendary Breton spirit of solidarity! This free service connecting carpoolers is available by phone with a friendly team on the other end of the line, or online for those who are more tech-savvy.

How does it work?

- **A friendly, personal welcome—as simple as a phone call—available 5 days a week** [9:30 AM–12:30 PM / 2:00 PM–5:00 PM]
- Supportive carpoolers ready to offer a seat in their car on their commute
- **The éhop solidarity team** receives requests and finds a carpooling solution
- **When a match is found:** éhop provides the driver's contact information to the passenger

And it works!

- 633,897 km carpooled (15 times around the Earth!) Since the service launched
- 30,387 carpool trips for work or training.
- 1,867 people were able to get to a job, training, or an interview.
