THE ASSOCIATION "EMERAUDE TRANSITION ÉNERGÉTIQUE" (ETE) AIMS TO REDUCE OUR ENERGY CONSUMPTION AND PROMOTE RENEWABLE ENERGY

Structure : Emeraude Energy Transition

Difficulté : facile

Brittany

Based on the Emerald Coast, Emeraude Transition Énergétique raises awareness about energy issues and supports individuals, local communities, and businesses.

THE "EMERAUDE TRANSITION ÉNERGÉTIQUE" (ETE) ASSOCIATION AIMS TO REDUCE OUR ENERGY CONSUMPTION AND PROMOTE RENEWABLE ENERGY. ITS THREE OBJECTIVES ARE:

- **To inform and raise public awareness** about energy issues and the management of natural resource consumption, particularly water: best practices
- **Providing** practical, volunteer-based **support** to people wishing to insulate their homes: renovation-energetique, upgrade their equipment, or install solar panels: investir-ensemble
- **To implement collective renewable energy (RE) production projects.** The cooperative and community-based organization: rance-[emeraude.centralesvillageoises.fr](https://www.emeraude.centralesvillageoises.fr) was established in late 2021 to carry out these projects on the rooftops of local communities or businesses within the Regional Nature Park
