#collection #workshop

Thrift store, repair shop, woodworking and sewing workshop

Structure : RECYCLOTOPIA

Difficulté : facile

Castelnaudary Occitanie

It all starts with a recycling center—a place dedicated to combating the waste of materials and energy, with the goal of reducing the waste that clutters our planet.

We're adding a Repair Café, a community computer center, a materials library—including spare parts…

A fertile ground for bringing our utopian visions to life…

A lively and welcoming place, conducive to exchange and sharing, to the emergence of new ideas to advance on the path of eco-citizenship through workshops, events, café discussions,

and why not: a community café, exhibitions, and conferences, or even performances.

Better than recycling, let's put upcycling into practice!
Let's promote the expansion of the circular economy, for the benefit of our environment.

Our activities:

- A repair café on Saturday mornings

- A thrift shop

Woodworking and sewing workshops
