Environmental protection through cleanup efforts in polluted areas.

Structure : ESE 65

Difficulté : facile

Tarbes Occitanie

ESE is a non-profit organization established under the French Law of 1901, dedicated to environmental protection. Our primary goal is to highlight the impact we have on the environment.

Our headquarters are located in Tarbes in the Hautes-Pyrénées. We operate in southwestern France, between the Bigorre rivers and the beaches of the Landes.

We organize cleanup efforts in polluted areas. We are aware that simply collecting trash is not the solution. The problem must be addressed at its root, because the best waste is the waste

we don’t produce.

Sports, the focal point of our activities.

Because love for our environment begins with the desire to get to know it by spending time in it, we engage in various sports activities directly connected to nature.

As part of the PRECIOUS PLASTIC project, we have set up a plastic collection point in downtown Tarbes.
