Recycling Center: Prioritize reduction, reuse, and then recycling. Collect, raise awareness, process, and sell

Structure : Planet Reuse

Difficulté : facile

Albi | Occitanie

Prioritizing reduction, reuse, and then recycling. Through collection, outreach, recovery, and sales, the team is now able to work in collaboration with local authorities and other organizations to protect the environment.

Our Albi **“resource** center” is one of the pillars of the local ***circular economy***, which can be summed up as ***reusing rather than throwing*** away.

In this spirit of a “community garage sale,” we accept donations from individuals (furniture,

clothing, books, dishes, home decor, appliances, etc.). We refurbish them if necessary, and they are then offered to you at a very low price.
