Facilitate / accelerate the assessment of the direct and indirect environmental impacts of digital technology.

Structure : Boavizta

Difficulté : facile

Montpellier Occitanie

Facilitate and accelerate the assessment of the direct and indirect environmental impacts of digital technology.

Our missions

Boavizta contributes to:

- Democratizing the environmental impact assessment of digital technologies within organizations, helping the public and members build their skills
- Producing the key shared resources missing from the ecosystem (methodologies, data, tools, etc.)
- Standardizing them and making them visible
- Spreading them / integrating them within organizations
-

But also

- Define relevant and binding regulations
- Build alternative and desirable visions around digital technology and new responsible business models
- Help decision-makers redirect their organizations and align with ambitious trajectories by

questioning digital technology in a profound and radical way

At Boavizta, we all have a role to play in helping to reduce the environmental impact of digital technology. Collective effort is crucial, and your participation can truly help advance our projects, either directly or indirectly.
