PROMOTES ALL SECTORS OF THE WATER INDUSTRY AS PART OF A REGIONAL ECONOMIC DEVELOPMENT INITIATIVE.

Structure : AQUA VALLAY

Difficulté : facile

Occitanie

The Aqua-Valley cluster covers the Occitanie and South regions, which are home to one of the highest concentrations of researchers and companies in the water sector. The competitiveness cluster brings together nearly 250 private and public organizations (companies, startups, research centers, universities, associations) in the water sector.

The objective of the Aqua-Valley Cluster is to contribute to the growth of micro-enterprises and SMEs by **facilitating networks of stakeholders**, **pooling resources**, and implementing **collective initiatives** covering the full range of professions and the water cycle.

Aqua-Valley promotes all sectors of the water industry as part of a **regional economic development** strategy. The Cluster supports its members in areas such as market development, innovation, skills consolidation, partnerships, and internationalization.

The cluster offers a wide range of expertise:

- Water
- Networks and distribution
- Collection and treatment
- Reuse and recycling
- Analysis and measurement
- Risk management
- Consulting and engineering

... serving the water markets

- Agriculture and Forestry
- Industry
- Cities and Rural Areas
- Health, Well-being, and Quality of Life
- Environment and Natural Areas.

AQUARHESE is an outreach project aimed at local governments and businesses in the water sector. The initiative focuses on drinking water and sanitation issues; it contributes to improving the quality of networks and preserving the environment.
