DES IDÉES PLEIN LA TERRE

Marseille

Provence-Alpes-
Côte d'Azur

Le Talus: a Marseille-based third place for sharing, discovering, and experimenting with new ways of living and urban planning.

Launched in 2018, Le Talus is a pilot project to transform a former construction waste dump into a hub for innovation and exploration of urban agroecology

Comprising two distinct plots, Le Talus is located in Marseille's 12th arrondissement at the heart of a neighborhood undergoing urban renewal, which currently lacks spaces for socio-

cultural life.

Since early 2022, we have been committed to structuring our activities around five programs that reflect our vision as well as our areas of focus at the local level:

- Agroecology
- Environment
- Sustainable Food
- Reuse and DIY
- Sociocultural.
