CORTELAB CONDUCTS RESEARCH AND DEVELOPMENT OF INNOVATIVE OPERATIONAL SOLUTIONS FOR WATER PURIFICATION

Structure : Cortelab

Difficulté : facile

Chédigny

CORTELAB primarily collaborates with stakeholders in the wastewater treatment sector and local authorities in France, Europe, and Africa. The company is driven by a commitment to fostering collective intelligence for the benefit of the environment.

CORTELAB CONDUCTS RESEARCH AND DEVELOPMENT OF INNOVATIVE OPERATIONAL SOLUTIONS DEDICATED TO WATER PURIFICATION.

CORTELAB collaborates with the research and study units of IRSTEA in Lyon (France) and Geosciences Environnement in Toulouse (GET). It participates in the work of **the DREAM Water & Environments Cluster,** which is the French competitiveness cluster for the Water and Environment sector. This cluster is dedicated to supporting innovation. CORTELAB works with numerous French and international stakeholders addressing wastewater issues in particular.
