#hemp #insulation

In the face of a highly globalized textile industry that is destroying both the planet and people, our mission is to empower citizens to take action and make the textile industry a vibrant, living world.

Structure : VirgoCoop

Difficulté : facile

Castres

Stop disposable fashion

Yes to eco-friendly, ethical, and socially responsible textiles

Faced with a highly globalized textile industry that is destroying the planet and people, our mission is to empower citizens to take action *and make the textile world a living one.*

- **We bring together *everyone who wants to take action to transform the textile world.***
- **We develop the production of eco-friendly fibers, *primarily hemp and wool, in partnership with French farmers.***

- **We manufacture 100% natural fabrics *in our Tissages d'Autan workshop near Castres.***
- **We share our knowledge *in a spirit of openness to accelerate change in the textile industry.***
