We organize full-day, half-day, and weekend events centered on the following theme: “How human activity can impact our environment”—and more specifically the mountain environment, since that is what brings us together. This environment, so fragile due to its altitude and its unique climatic conditions, is where we wish to share the awareness we gained about a decade ago..... “

Nature outings accessible to everyone!

You don't have to be an expert athlete to come and discover our environment—just be curious and eager to have fun.

Our excursion program lets you learn to read and understand the nature around us through fun workshops during an easy walk through the enchanted places offered by the Gavarnie valleys.

A timeless moment of relaxation, good cheer, and the sharing of knowledge (wildlife, flora, aquatic environments, forest ecosystems...).

Outings led by a state-certified environmental education specialist.
