RECYCLING CENTER AND COMMUNITY WORKSHOP

Structure : The Collection

Difficulté : facile

Montreuil

Île-de-France

Donate instead of throwing away: an eco-friendly and civic-minded act!
La Collecterie allows you to donate your items rather than throw them away, so that you can help establish a community-based, based on solidarity and local action, non-profit and focused on job creation.

How can you donate?

- By voluntary drop-off
- Through free home pickup: We offer a free home pickup service by appointment

All your donations are carefully sorted: Visit the Collecterie to get rid of your bulky items; means not only being welcomed and guided, but also informed about the importance of reuse in the daily management of our waste. Every item you bring to us requires its own specific processing procedure.

After weighing and cleaning it, we assess its condition, the materials it's made of, its fair-trade price, and its recycling stream.

Two shops are located in Montreuil (93)

Workshops are also offered (repair, crafts, carpentry, etc.)

1933: Tons of items collected, 807 tons of items reused
