## GIVING OBJECTS A SECOND LIFE TO BENEFIT THE ENVIRONMENT, CREATE JOBS, AND FOSTER SOLIDARITY.

Structure : The Perpignan Recycling Center

Difficulté : facile

Perpignan

Occitanie

The Perpignan Resource Center is run by the AEPI, an organization that promotes social integration through economic activity. The AEPI is a nonprofit organization whose mission is to empower people facing particular challenges in accessing the workforce to take on any job within their skill set.

We are the first resource center in the Pyrénées-Orientales department, certified by four [eco-system](#) organizations—[Ecologic](#), [Valdelia](#), and [éco-Mobilier](#)—all recognized by the state—whose mission is to **collect, recycle, and contribute to waste prevention**.

The four functions of a resource center are:

- Collect
- Recycle (Reuse/Repurpose)
- Redistribute/Resell at low prices
- Raise awareness

**Collection for businesses:** We collect commercial furniture: office, institutional, fit-out, technical, and IT equipment

**Collection for individuals:** Furniture, IT equipment, appliances, knick-knacks, toys...
