## SUMMER VACATION CAMP FOR KIDS

Structure : Creative Autonomy

Difficulté : facile

Minerva

## Our organization is accredited by the CAF

The association places great importance on the ability to welcome all children without distinction. The framework we offer at Autonomie Créative is designed to allow children to develop independently. We place particular importance on the children's self-organization of community life. Thus, Councils are established during all our programs where both children and adults have a voice. This allows for the expression of feedback and suggestions to the entire group. At Autonomie Créative, we are committed to fostering these spaces for discussion, whether during informal or more formal settings. For an ecological approach: At Autonomie Créative, we are committed to reconnecting children with nature and local producers.

### Program offerings in Minerve (in the Hérault)

- Aventure Eau Languedoc (ages 10–14)
- Village Des Jeunes (ages 10–16)
