Recycling center, industrial recycling facility, garden, social integration

Structure : MP²

Difficulté : facile

Lezignan-Corbières | Occitanie

REUSE CENTER: Our reuse center collects, cleans, and refurbishes your items for resale, giving them a second life with a new owner.

WHO ARE OUR COLLECTIONS FOR**?** Individuals, businesses, organizations, local governments, and public agencies.

WHO ARE OUR SALES FOR? Primarily individuals and organizations.

THE RECYCLING CENTER HANDLES:

- The collection and recovery of cardboard packaging from businesses and local governments (sorting, shredding, baling, and shipping to a paper mill for recycling—certified and tracked—using environmentally responsible processes),
- The collection of batteries, plastic film and bottles, cans, and polystyrene,
- The removal and collection of office paper from businesses and government agencies (via secure, locked containers provided by us and replaced as soon as they are full),
- The manufacture of cardboard containers from recycled pallets for local governments and businesses to serve as drop-off points.

A PESTICIDE-FREE ENVIRONMENT

Our garden employs about ten staff members engaged in organic vegetable farming, training, and the maintenance of green spaces, exclusively without the use of chemicals or pesticides.

3 MAIN ACTIVITIES: chemical-free green space maintenance (brush clearing, pruning, planting, mowing, trimming), organic vegetable farming (AB certification), and the “Key Skills” training program

INTEGRATION

Le Marchepied, an association supporting MP2 Environnement, is a social integration through economic activity (SIAE) organization. Rooted in the social and solidarity economy, the association offers paid employment in one of our sectors to unemployed individuals facing particular challenges in terms of social and/or professional integration.

In addition to this employment, the individual receives individualized and personalized support.
