Training in textile recycling techniques

Structure : Frip So

Difficulté : facile

Uzès | Occitanie

The FripSo project is for you, your students, your children, their friends, and their friends' friends. Sharing fashion means reaching out to others and their tastes; it means exchanging ideas, debating, comparing, repairing, customizing, and giving things a makeover while having fun—and finally understanding that it's on the streets, in our middle schools and high schools, that brands find their inspiration, not the other way around.
