#inequality #together

Montpellier's first non-profit cooperative and community-owned supermarket

Structure : La Cagette

Difficulté : facile

Montpellier Occitanie

La Cagette is a non-profit, cooperative, and participatory supermarket open to everyone, where members volunteer three hours every four weeks and are the sole owners, the sole decision-makers, and the sole customers.

The goal is to offer an alternative to large-scale retail that is accessible to everyone

- A complete range of products: food, personal care, and household cleaning.
- A non-profit supermarket: no dividends paid.
- Everything is reinvested in the cooperative.
- Total transparency regarding the profit margin
- A place for exchange, sharing, and discussion about food.

And fighting against food inequality:

- Enabling everyone to improve their diet regardless of their means or beliefs
- Fairly compensating producers
- Building sustainable and transparent supply chains together, local whenever possible.
