# Restoring terrestrial ecosystems on a large scale to address global environmental challenges

Structure : Reforestation

*Difficulté : facile*

Rueil-Malmaison Île-de-France

Around the world, the forestry projects funded by Reforest'Action aim to preserve, restore, or recreate regenerative ecosystems in order to optimize their ecosystem services over the long term

**Why partner with Reforest'Action?**

- **Support**: Benefit from financial, technical, and administrative support with a dedicated local contact and monitoring and decision-making tools.
- **Expertise**: Benefit from technical and scientific expertise in forestry and a balanced approach that takes into account global and local, environmental, and socio-economic challenges.
- **Project types:** Financing of projects worldwide and on all types of land: agricultural, forest, urban, and coastal.
- **Funding**: Secure funding for your project through our extensive network of investors and companies that trust us.

To be eligible, your project must meet certain criteria outlined in the terms of reference
