#carbon #hedge

Supporting farmers in creating carbon sinks

Structure : My Carbon Credit

St. Puy Occitanie

MY CARBON CREDIT, a solution...

- Human-centered: clear communication between identified stakeholders
- Simple: a platform that streamlines legal, administrative, and reporting processes
- CSR-aligned: valuable for corporate climate strategies
- Local: local agricultural projects, rooted in the communities
- Credible: certified and traceable credits
- Responsible: a balanced approach to emissions and carbon sequestration

A solution designed for

agricultural project leaders

For farmers and project leaders, the platform enables: • easier access to the voluntary carbon market, • reduced administrative and legal burdens, • secure sales of their credits, • recognition of practices already in place or currently being implemented. The goal is not to impose a single model, but to structure and make local projects transparent, while respecting economic and agronomic realities.
