

## PROMOTE THE USE OF BICYCLES AS AN ECONOMICAL AND ENVIRONMENTALLY FRIENDLY MODE OF TRANSPORTATION

Structure : VUVIB

Villefranche-sur-Saône

Auvergne-Rhône-Alpes

### The purpose of the VUVIB association is to:

- promote, in all its forms, the use of bicycles as an economical, eco-friendly, healthy, non-polluting, and quiet mode of transportation, complementary to public transit and other forms of active transportation;
- contribute to improving safety for cyclists;
- work with users, local and national organizations, and public authorities to study infrastructure and services for cyclists;
- ensure that cyclists and active modes of transportation are systematically taken into account in public investments and promote intermodality;

## OUR ACTIONS

- Would you like to learn how to ride a bike safely, whether in rural or urban areas? VUVIB invites you to participate in a safety training session
- Organization of a night ride as part of “**Cyclists, Shine Bright,**” the national awareness campaign by the FUB (Federation of Bicycle Users) on cyclist visibility at night.
- Organization of a bicycle self-repair training workshop
