GUIDE: PROJECT SUPPORT AND COORDINATION OF COMMUNITY GARDENS IN THE RHÔNE-ALPES REGION

Structure : The Garden Pass

 Auvergne-Rhône-
Alpes

Are you interested in starting a community garden project? Would you like more information about community gardens and the support Passe-Jardins can offer? Group information sessions are held throughout the year.

Passe-Jardins' strategy is implemented through the six areas of activity in its community project:

1- Project

support and guidance By continuing the momentum of creating community gardens, promoting the autonomy of gardening collectives, and ensuring the long-term sustainability of gardens through community education

2- Working toward food and environmental

justice By managing the Envol social garden, creating vegetable gardens for food justice, building food and climate resilience, and developing a research focus on food and urban agriculture

3- Fostering biodiversity and nature in the city

By expanding our citizen science activities and implementing specific landscaping features in community gardens.

4- Serving as a resource and training

center By disseminating resources and sharing knowledge

5- Increasing local

agency By affirming the role of PASSE-jardins, improving the visibility of community gardens, representing community gardens to partners at all levels, and coordinating the community garden network

6- Internal governance at Passe-Jardins

Notably by developing volunteer efforts

There are currently **475 gardens listed**

- integration gardens
- shared gardens
- Family gardens

Figures:

- Number of participants: 18,496
- Number of plots: 9,441
- Cultivated area: 268.8 ha
- Annual harvest weight: 290.0 t
